

Dear Industry Partners,

We kindly invite you to participate as a sponsor and/or exhibitor at the Ultimate SKIN Health Symposium which will be held on November 9th - 11th, 2012 in Beverly Hills.

The Art and Science of Skin Treatments & Rejuvenation

We have all attended symposia that cover various topics related to invasive and non-invasive, ablative and non-ablative procedures, fillers, neuromodulators, lasers, and chemical peels offering what is proven or unproven among the myriad of procedures on the market today. Despite the fact that the number of speakers often outnumbers the audience, the fundamental organ of "the skin" is often inadequately addressed. We talk about every method that cuts, evaporates, resurfaces, plumps, and tightens the skin, without addressing the skin itself; its quality, integrity, vitality and suitability for all of these procedures.

The primary focus in this symposium will be on "the skin", covering the science of how to restore skin health, cellular activity and function, and how to improve the skin's ability to tolerate any procedure. We do not only need experts on the stage, we also need you as industry experts with your experience to discuss new developments, to present new solutions and to show current successful treatments with your innovative devices and products.

We believe this will be a truly excellent opportunity for sponsors to launch and to present their products and to promote their companies.

Who will attend?

The high-level medical "Skin Meeting" will be attended by more than 250 delegates from all over the world. The congress will bring together surgeons, plastic surgeons, dermatologists, physicians and specialists, clinical practitioners, nurses and dermato-cosmeticians.

Participants will learn about in-depth treatment protocols for a wide range of skin conditions, including photo damage, hyperpigmentation and melasma, rosacea, acne, scars, and rhytides, providing a solid foundation for clinical practice.

We look forward to hearing from you. Dr. Zein E. Obagi and the faculty members like to welcome you in Beverly Hills.

Should you have any further questions please do not hesitate to contact us.

With best regards

i.O. Ramona Rustemeyer
